For: BIOMETRIC KEY

PRELIMINARY AMENDMENT

Box Patent Application Commissioner for Patents Washington, D.C. 20231

Sir:

Prior to examination on the merits, please amend the above-identified application as follows:

In the Claims:

- 6. A biometric key as claimed in claim [3, 4 or 5] 3, wherein the biometric sensor is accommodated within a mating recess in the insulator.
- 7. A biometric key as claimed in [any one of claims 2-6] <u>claim 2</u>, wherein the key body incorporates a circuit board engaging with said one or more contacts.
- 11. A biometric key as claimed in [any one of claims 2-10] <u>claim 2</u>, wherein the or each contact is at least partly surrounded by an insulator sleeve.

- 13. A biometric key as claimed in [any preceding claim] <u>claim 1</u>, wherein the key body has a handle or gripping part incorporating the biometric sensor and a blade portion.
- 15. A biometric key as claimed in [any one of claims 1-13] <u>claim 1</u>, wherein the blade portion is plate like in shape not incorporating wards, for insertion into a slot of the receptor body.
- 16. A biometric key as claimed in claim [11 or 12] 11, wherein each contact comprises a pair of contact pins located in accommodating insulator sleeves, wherein each contact pin is separated by the circuit board.
- 17. A biometric key as claimed in [any preceding claim] <u>claim 1</u>, wherein the key body incorporates a smart chip.

Please cancel claim 19 without prejudice.

- 24. A receptor body as claimed in [any one of claims 20-23] <u>claim 20</u>, which incorporates an internal processing unit, which corresponds to said processing means.
- 28. A receptor body as claimed in claim [20, 21, 24 or 25] <u>20</u>, which has a slot engageable with a blade portion of the biometric key, wherein said blade portion does not incorporate wards.
- 29. A receptor body as claimed in [any one of claims 20-28] <u>claim 20</u>, wherein each of the contacts contained threin are spring biased to a position in abutment with a corresponding contact

pin of the biometric key body.

33. A receptor body as claimed in [any one of claims 20-32] <u>claim 20</u>, wherein there is incorporated an indicator means indicating validation or rejection of biometric data generated by the sensor.

<u>REMARKS</u>

The foregoing Preliminary Amendment is made to convert the multiple dependent claims to non-multiple dependent claims in order to avoid the surcharge for multiple dependent claims. No new matter is added. Examination on the merits is respectfully requested.
